

# David Baggs Speaks

Inspiring audiences to action for a greener, healthier built environment

## **Green Building Solutions Specialist Green Products & Building Researcher & Assessor Multi-Award Winning Eco-Architect**

He is a vocal advocate, educator and guide in a world ready to be greener. An innovative thinker and practitioner, David communicates

knowledge in Green Building Solutions and Life Cycle thinking with great passion informing and inspiring the construction field to step up to the sustainability challenges. His primary aim is to push boundaries in ecologically sustainable development, out to new horizons. He is leading architects and designers towards greener visions and lighting the creative fuse for building manufacturers to develop more eco and health preferable building materials, fit-out products and technologies.

## **Powerful presentations that push the boundaries ...**

- The 10 Winning Strategies for high performing Green Building
- Integrative Design Process: How to drive green building costs down and performance up
- Measuring the Easy way Greenhouse Impacts: BIM based life Cycle assessment
- Green Building Product Certification: Making your green product research easier
- Estidama Pearls: The Introducing World's best Green Building Rating Program
- Estidama and Products: Explaining Estidama Pearls and how it relates to products
- Restorative Sustainability, Lean Cities & Low Carb Materials
- Sustainable Materials in Context
- Optimising Building Design for Sustainability & Comfort
- Detoxifying the Work Environment: Driving Productivity Through Design
- Green Roofs & Walls: The New Impetus For Vegetated Buildings
